[Antifa always wears goggles to protect from pepper spray....](#)

posted 3 days ago by [Rudygarrido](#) +931 / -0

Wouldn't black spray paint be more effective... and I wouldn't punch them... I would just take off their helmets and face masks. Then all the cameras can identify them. That's more problematic for them than getting beat up.

👍 Modern Problems require Modern Solutions 🤔

You're touching their shoe? Ewwwww?

Lol funny story - was at the beautiful St Mary's Cathedral in Portland OR attending mass and some nasty little street kid came running in right for the tabernacle shrieking "ALLLLHOOOHAAAA"

So they ushers heard him back to the foyer and it was basically the end of mass ... ok we go out and the kid lunges at me... at that point I had about 4 years of Judo under my belt but ewwww he was so nasty and gross I didn't want to touch him at all to throw him. I just made like I was ready to kick him and he hissed "DIE" at me and ran off . Ok that was weird.

I did a couple karate sessions after that to get used to striking - that kid was so gross

Ps - the ushers gave him money so he'd go away SMH

▲ 5 ▼

[- LordYugemongus](#) 5 points 3 days ago +5 / -0

I never saw him again - usually there were a couple homeless around just getting out of the weather going to mass but this was 4 years ago before Portland really really went downhill - I don't live there anymore and haven't been to that part of town since. I'm sure it's a disaster now. I think there were AnTifa roadblocks near the cathedral this summer

this underated. People need to understand more than half the fight is a mental one. You destroy them mentally, they will run and give up. (Sun tzu)

So yeah, take their masks off, take their shoes, take their coats and bags. When they realise they are "naked" and vulnerable. they'll mentally resort to their weak lonely attitude, feeling ashamed, embarrassed.

But WD40 will stay on a surface for days instead of seconds. Extend the straw of a pressurized liquid to the end of a stick. Add tazer or electrical BBQ ignitor. Selectable spray paint, pepper spray, etc.

Holy shit, I just realized, super soaker filled with salt water would be pretty effective in this weather.

fill a whippit cracker full of piss that has baked in the sun for a day or 2 then crack a co2 cannister in it to pressurize,

the idea is to disperse your freshly created jenkem spray into their crowds. even their own friends wont be able to stand the smell and will retreat.

diarrhea mixed up in the cannister and pressurized would make a dam good choice at this point too, just be sure to mix in some cooking oil for the extra smear factor if you take that route

the same can basically be done with anything you can think of to make them smell like straight ass.
